How does Asset Care work?

More than just nursing home care

Long-term care (LTC) is intended to provide support to those who need assistance due to severe cognitive impairment, or help completing Activities of Daily Living (ADLs) like eating or bathing. Our LTC solutions can help you pay for almost any level of care, ranging from local care during the day to more specialized support:

- Home health care
- Assisted living
- Nursing home
- Adult day care
- Hospice

Note: Benefits will be paid monthly up to the monthly benefit limit based on the actual number of days the insured is confined or receiving qualified long-term care services.

Benefits beyond traditional LTC

This suite of whole life-based products can help you retain your independence, preserve your dignity and leave a legacy for your loved ones by offering:

- Tax-free LTC benefits
- A death benefit
- The option to have your premium returned

Benefit triggers*

You cannot perform at least two of six Activities of Daily Living (ADLs), which include bathing, maintaining continence, dressing yourself, eating/feeding yourself, toileting (including getting on and off a toilet) and transferring (for example, from a bed to a chair).

You require care as a result of a severe cognitive impairment (such as Alzheimer's disease).

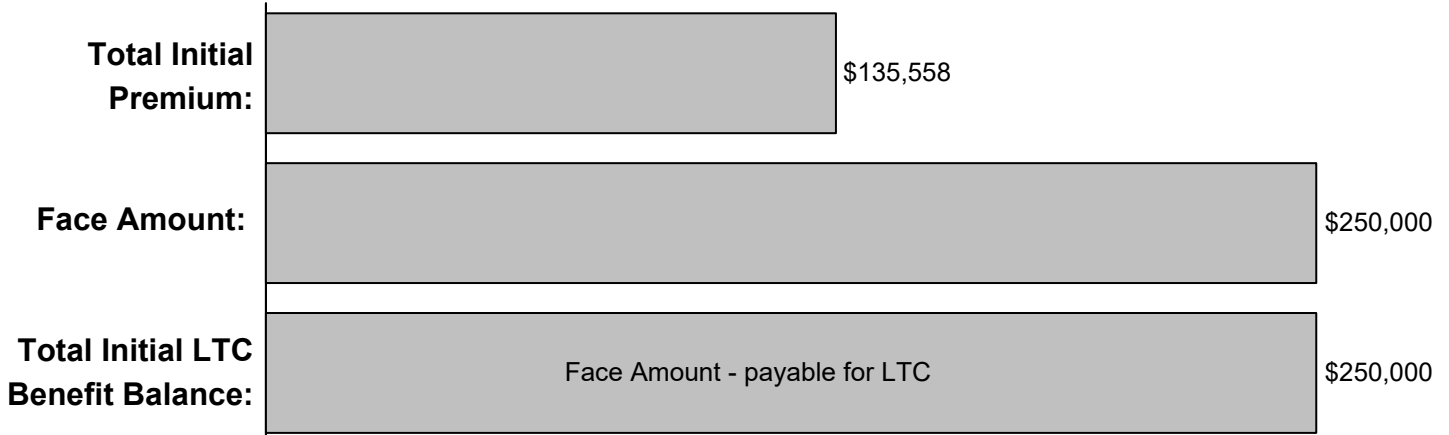

*To be eligible for benefits, the insured must be a chronically ill individual with qualified long-term care services provided pursuant to a plan of care prescribed by a licensed health care practitioner.

Elimination Period

90 days is the elimination period to access LTC benefits once you have a benefit trigger. However, Home Health Care is available after 0 days.

Note: Not all features and benefits of the policy are shown here. For additional details of all features and benefits, please see the policy.

A Breakdown of Values - And Potential Tax Deductions

Total Initial Premium Amount:	\$135,557.50
Single Pay Premium:	\$135,557.50
Life Premium:	\$131,212.50
AOB Premium*:	\$4,345.00

Amount to Underwrite: \$118,787.50

If the Amount to Underwrite is greater than \$500,000, full underwriting (which may involve a paramedical exam, labs, or additional APS/medical records) is required.

*These amounts may be tax-deductible according to IRS guidelines. Please consult a tax professional for additional information and advice.

Administration - Understanding Rounding

With being able to quote different input methods, we sometimes have small differences that occur between what is requested & what is administered. The administration system feeds the values in your policy pages-but some of the values may differ slightly from how you first ran a quote. This is because our system calculates whole dollars of Face Amount.

An example (costs vary):	• \$255,452 Face Amount	(Premium: \$149,998.86 - \$149,999.45)
	• \$255,453 Face Amount	(Premium: \$149,999.46 - \$150,000.02)
	• \$255,454 Face Amount	(Premium: \$150,000.03 - \$150,000.62)

If we receive **\$150,000.00** in premium, you can see from above that this will purchase **\$255,453** of Face Amount. Your client would receive the same benefits for **\$149,999.46** in premium. If a policyholder wants to make sure, to the cent, that they are paying the minimum premium for the benefits they are receiving, this value can be found on the Ledger page of the quote or in the Breakdown of Values section above and that exact amount can be sent to us. Otherwise, the small difference in premium (in this example, **\$0.54**) is not refunded.
